RE: MEGALLY MEGALLY

D.O.B. 09/10/1949

To Whom It May Concern:

Mr. Megally is under my care since January 2004. He is in a good stable physical condition. Though he had chronic Hepatitis C, his liver condition is stable. It is expected to stay in the same condition this should not constitute any unfavorable effect to him getting married and having children.

His status has no effect on his perspective spouse or children.

If you have any questions feel free to call me.

Sincerely,

A handwritten signature in black ink that reads "Nagwa Azer M.D." with a stylized flourish at the end.

Nagwa Azer M.D.
